

# NORTHUMBERLAND NATURE PRESERVE

Sharpe Road, Handy Township

89 acres

This preserve was donated to the Conservancy by Marialice Phillips in honor and memory of her husband, Bill Phillips. Bill loved the outdoors and purchased the land back in 1963. From 1981 to 1990 part of the property was farmed, but now is currently a mixture of open fields, oak-hardwood forest, and wetlands. Bill expressed a strong desire to keep as much of the land preserved as possible, so after his death in 2003 Marialice decided that the majority of the land would be donated to the Livingston Land Conservancy.
